The Village recognizes that the keeping of backyard chickens helps provide locally produced, affordable and sustainable food. In addition, the keeping of such chickens can also provide animal companionship, weed and insect control, and nitrogen-rich fertilizer. The Village of Hatley recognizes, however, that potential adverse impacts may result from the keeping of domesticated chickens as a result of odor, unsanitary waste removal and storage practices, noise, improper living conditions, non-confined poultry leaving the owner's property, and the attraction of predators, rodents or insects. This Section is intended to balance these interests. This Section is not intended to apply to indoor non-poultry birds kept as pets, including, but not limited to, parrots and parakeets, nor to the lawful transportation of fowl through the Village of Hatley.
